*Facilitated by* KATY PILLAR

**One thing most people can agree on is that we desire more love in our lives.**

**In this 1-Day Seminar you can:**

- \* Let go of disturbing energies and emotions such as:
  - fear, anger, discouragement, guilt, shame and negativity.
- \* Have a breakthrough in something that is troubling or limiting you.
- \* Access innate qualities to move forward productively in your life.
- \* Connect to a Loving Consciousness within that is greater than yourself.

As a facilitator for the Love's Awakening 1-Day Seminar, Katy brings over 20 years of experience leading meditation workshops and programs. Through her own experience and dedication, she will assist seminar participants in finding the love and connection they are seeking through inner exploration and meditation.

The Love's Awakening 1-Day is a non-denominational seminar of inner exploration, meditation and movement. It is a powerful transformative process that helps you open your body, mind, heart and spirit, so that you can experience healing, renewed passion, aliveness and deep love from within.
